

The Stormwater Sessions:

*Designing and Paying for
a Better Stormwater
Management Program*

**Wednesday,
June 21, 2006
Dean College, Franklin
in Campus Center Building**

CO-SPONSORS:

MA Office of Coastal Zone Management
and
Charles River Watershed Association
with funding from
US Environmental Protection Agency

The Stormwater Sessions:

A day-long workshop covering:

- Low Impact Development (LID) approaches
- Techniques to implement LID in your town
- Case studies and a site visit to an on-the-ground LID development

— and —

- Budgeting for stormwater management: capital and operating plans
- Financing tools and techniques to pay for stormwater management
- The legality of stormwater fees and utilities in Massachusetts
- Case study on the development of a stormwater user fee

“Come budget time, the cost of funding storm water activities, such as storm water drainage improvements, water quality management, proper ordinance development, and wetland protection may create a volatile financial situation.”

*Todd Ochsner,
Center for Land Use Education*
